## **RLR Crash Data and Analysis**

The table and chart below show a summary of motor vehicle crashes at the intersection of Vollmer Rd and Dixie Hwy over a span of 7 years. The data from 2007-2009 show the period prior to the installation of RLR cameras. The data from 2010 show the year in which the cameras were installed. The data from 2011-2013 show the period following the installation.

	Turning	Rear End	Angle	Sideswipe	Other	Total
<b>2007</b>	1	6	0	0	1	<b>8</b>
<b>2008</b>	3	6	1	0	0	<b>10</b>

### Notes

Current year and previous year data are not yet complete and are subject to change as more information becomes available. Calendar date selections include data based on the date of the crash. Year selections include data based on the statistical year in which the crash was processed.

The intersection-related field could be incorrect and affect the data on the report.

If a crash occurs between two municipalities, it may be coded to another city/county from what is on the crash report.

Crashes with incomplete location information are not included.

Areas where routes have more than one junction have been known to cause problems in determining accurate locations. Please notify us to verify the data for intersections with more than one junction.

For roadway segments which include the intersection of two routes, the intersection report may need to be run on the other route in order to get all the crashes.
